

WOLFGANG KAUFMANN | CEO, Datacenter One

Life at AtlasEdge

As Chief Executive Officer of Datacenter One, Wolfgang Kaufmann is responsible for all aspects of the German business acquired by AtlasEdge in February 2023. Wolfgang joined the AtlasEdge Management Team as part of the acquisition and now works alongside Giuliano.

Life before AtlasEdge

Wolfgang has spent over 20 years in the data centre industry, across various senior positions. He is an expert in the planning, construction and operation of data centres and innovative infrastructure solutions. In 2016, he founded Datacenter One, helping it grow into Germany's leading independent data centre provider, which included implementing the country's first completely modular data centre.

Life outside AtlasEdge

When not redesigning data centres, you're likely to find Wolfgang hiking or skiing in the much-loved Alps or travelling to a new country to experience their cultures.
