

TESH DURVASULA | Chief Executive Officer

Life at AtlasEdge

As Chief Executive Officer, Tesh sets the strategy for the company and leads the talented team creating Europe's leading data centre platform.

Life Before AtlasEdge

Tesh is a digital infrastructure and data centre industry veteran with more than 25 years of experience in development, finance, sales, marketing, and real estate. Before joining AtlasEdge, he served as CEO of Africa Data Centres, where he led the company's hyperscale expansion, making it one of the continent's largest operators. Prior to this, Tesh held various executive roles at CyrusOne, eventually becoming the company's CEO. During his tenure at CyrusOne, annual revenue grew from \$221 million in 2012 to over \$1 billion by 2020. His previous roles also include Chief Marketing and Business Officer for Telx, founder of NYC-Connect, and various management positions at Abovenet, Sprint, and Metromedia Fiber Networks.

Life Outside of AtlasEdge

Sport, family, food, and travel are some of Tesh's biggest passions. Married, with three sons, he has been fortunate to enjoy a career that has spanned multiple continents, cultures and cuisines. Alongside his improving golf game, he has been a youth football coach for over sixteen years and is involved in charities dedicated to youth athletics.
